Our new community room is under way!

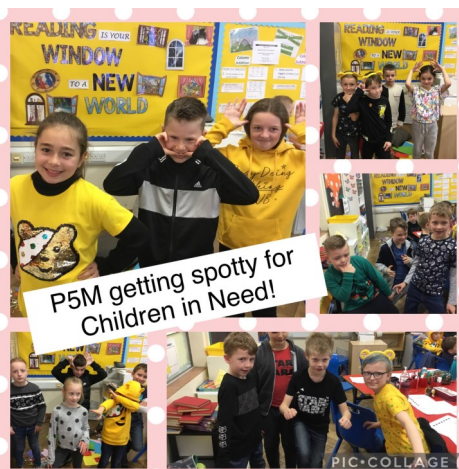

This week the first contractors were on site to begin work on our new community room. We will seek to minimise impact at all times however there are a couple of important things to note; Firstly when entering via the front gate, entry must only be made via the pedestrian gate, the main gate will be used for site access. Secondly you may also notice increased traffic through our back gate in the mornings as teachers will be required to park in our playground, please be mindful of this. The project is scheduled to take a minimum of fourteen weeks and we cannot wait to officially open our new room sometime in the new year. I am very sure you will agree it's a hugely exciting addition to our school.

Anti-Bullying Week 2021

This week all our classes spent some time examining the importance of being kind to one and another. This year we are placing a significant emphasis on addressing the social and emotional impact the last eighteen months has had on our children and this last week has played a big part in that. It included a visit to P6 & 7 from 'Uberheroes' and charity focused on working with children and young people to discuss the importance of looking after their mental health.
